Defendants' Report on Record Collection

Pursuant to ECF #207, Page ID #5679, Defendants submit this report on progress toward completing records collection for the Records Collection Pool. As of September 3, 2025, for the Record Collection Pool Plaintiffs:

1. Record requests have been sent to 3,755 providers.
2. Records collection is substantially complete for three Plaintiffs.
3. Defendants have produced 3812 record sets via Crosslink.
4. Defendants continue to encounter issues relating to healthcare noncompliance with Case Management Order No. 13. Most of these issues concern facilities which require proprietary authorizations and/or state that the authorization provided does not meet the requirements of applicable state or federal law. It is anticipated that provision of the amended authorization (submitted to chambers on August 28, 2025) will resolve this issue. Several other difficulties in this category involve invalid or outdated provider contact information including undeliverable provider addresses, as well as facilities which have been non-responsive to requests and attempted communications.

Dated: September 5, 2025

Respectfully submitted,
